## WEB DEVELOPER

Web Developer with 9+ live deployments in tourism and e-commerce sectors. Proficient in PHP, Laravel, SQL, and React.js. Currently pursuing an MCA and seeking a long-term role as a Web Developer to build scalable, high-performance web solutions.

## WORK EXPERIENCE

### Codec Networks | Web Developer Engineer

Feb 2026 – Present

- Managing and optimizing core corporate web infrastructure and existing software applications.
- Developing scalable web features and internal software solutions utilizing the MERN stack.

### Website Developer | The Branding Studio

Nov 2025 - Jan 2026

- Promoted to full-time role to lead end-to-end development of client-facing web solutions using React.js and Laravel.
- Optimized SQL queries and PHP backend logic for internal CRM modules to improve system performance.

### Website Developer Intern | The Branding Studio

Aug 2025 - Nov 2025

- Successfully delivered 2 live website projects and contributed to ongoing WordPress and PHP developments.
- Translated Figma designs into responsive UI components for diverse client sectors.

### Frontend Developer Intern | Turning Point Infotech

Jun 2025 - Aug 2025

- Delivered 4 live website projects with a focus on mobile-first responsiveness and UI/UX.
- Integrated PHP backends with WordPress CMS to provide manageable content solutions for clients.

### Web Developer Intern | WebPy SEO Club

Feb 2025 - Jun 2025

- Led development for 5+ live projects across tourism and e-commerce domains.
- Utilized Shopify and PHP to deliver custom, client-ready solutions for service-based websites.

## SKILLS

- **Languages:** PHP (Laravel), SQL (MySQL), JavaScript (ES6+), Java
- **Front-End:** HTML, CSS, Bootstrap, React.js.
- **Libraries & Frameworks:** React.js, Laravel, Bootstrap
- **Tools/Platforms:** Wordpress, Shopify, Figma, Canva, Git, Github, Firebase

## EDUCATION

**Masters in Computer Application (MCA)** | Galgotias Online, Noida | Expected May 2027

**Bachelor in Computer Application (BCA)** | GLA University, Mathura | May 2025

## PROJECTS

### **Healin Health (Wellness)**

- Developed a PHP/SQL site featuring a custom booking panel and WhatsApp API integration.

### **Explore India Voyages**

- Built a comprehensive tour operator website with destination guides using HTML, PHP, and CSS.

### **Adarsh World School (AWS)**

- Designed an official educational portal using HTML5, CSS3, and JavaScript for seamless navigation and responsive performance.

## EXTRACURRICULAR ACTIVITIES

- Vice President | Abacus Society: Led a 30-member team to organize tech events and codathons for 300+ participants.
- Co-Head | Editorial Team (Alumni Affairs): Managed content strategy and delivery for departmental engagement initiatives.
